

CraneBoard® 6 and 7 are engineered with Solid CoRe™ insulation, through our exclusive TXL™ Lamination Technology, giving your home all the performance advantages of Smart Core™ intelligent design.

### Smart Track™ System

Our Smart Core insulation breathes naturally ... moisture vapor evaporates as it passes through the panel. Specially designed Smart Track ridges create an air space for ventilation, allowing moisture to evaporate.

Any excess moisture is guided out through Smart Track engineered channels. Smart Track creates the ultimate moisture management system.

THINK OUTSIDE.®

Innovators to the core. **CRANEBOARD®**  
**SOLID CORE SIDING®**

Beauty meets versatility.

The 7" clapboard plank is the tried-and-true choice for an infinite variety of architectural styles. From the traditional Colonial to the most groundbreaking Contemporary design, **CraneBoard® 7** can be used as both a starting point and an exciting accent. Its expansive, architecturally correct width combines with a perfectly straight, deeply shadowed shape and hand-milled cedar finish. Add to this design superiority a selection of expressive colors and it's a distinctive option for any home.

## Clean styling makes an extraordinary statement.

Give your home a classic, crisp-looking exterior with **CraneBoard® 6**. It's the 21st century version of a time-tested surface that works in beautiful harmony with accents of stone, shake and board & batten, or can be used to cover an entire façade with smooth integrity. The triple-width, insulated span bridges structural imperfections for a flawless appearance. The milled cedargrain texture, straight face and deep shadows of the 6" profile give your house a solid, authentic presence.

## Elements that add immeasurable impact.

Architecture has rhythm and flow. Adding the charm and dimension of rustic, cedargrain **CraneBoard® Board & Batten** to a conventional façade offers a lively change in tempo. It can be the influential element of a number of popular homes styles, from Craftsman to Contemporary. In addition to its exceptional weather resistance, as an accent or a theme, CraneBoard Board & Batten brings vitality and interest to design.

### Window & Door Trim

5" and 3.5" Window Lineal

Window Crown Molding

Windowsill Lineal

Integral Window and Door Trim

Exterior Portfolio® by Crane is more than beautiful, long lasting exterior products for your home. We believe in a sustainable future for everyone. For you, this means a home made from environmentally preferred materials. For us, it means cladding products offering benefits such as durability and low maintenance. All of our products provide a long service life that requires no harmful finishes. Because our commitment to the environment stretches from our home to yours, we engineer sustainable benefits into our product development process through innovations such as our Smart Track™ moisture management system and our Solid CoRe™ insulation. To learn more, please visit [www.ExteriorPortfolio.com](http://www.ExteriorPortfolio.com).

## Accents to make your home complete.

Distinctive finishing details give a home a final touch of craftsmanship. Depending on the effect you're going for, they can provide clean contrast or matching harmony. Solid CoRe™ **Architectural Essentials™ Accessories** give you a wide selection of architectural accents, from a decorative three-piece corner post system to stately crown molding. Most Architectural Essentials Accessories are available in the same Smart Styles™ color palettes as CraneBoard®. All are engineered to fit smoothly with any CraneBoard design style you choose.
